

**Connected by Welding
United by Passion**

Our aim is to create deep connections - between metals, people, and industries. This passion has made us the innovation leader in arc welding and drives us every day to strive for technical excellence and strong, trusting partnerships. Our portfolio includes solutions for robot-assisted welding, unique and automated complete systems, and intuitive welding machines for manual use. We are also leading the welding technology sector into the future of Industry 5.0 with our digital solutions. A series of high-quality accessories and protective equipment in proven Fronius quality complete our range, making us your partner for every welding requirement.
